The MASSES are being distracted from the DANGER from 5-G...
Which by the way can cause shortness of breath...
I have screeching in my ears every night from that CRAP!
I have a E.F& R.F meter and it reads off the charts...

The worst "DISEASE" in the WORLD is WILLFUL IGNORANCE ...
I can forgive someone for being truly IGNORANT
If they have not been told or if the information is hidden from them.
But when someone WILLFULLY stays ignorant...
Just because it is easier or more convenient for them not to know...
Then they DESERVE what they get...
Which in this case is DEATH ....or CONFINEMENT ...

If the FAKE VIRUS is "RAGING" and "SURGING" like they say...
And is so SPREADABLE ...
Why are HOMELESS people not dying in droves???
And there are allot of homeless out there...
People are easier to control when they are in fear for their lives...

When I was a kid you could open the windows in Hospitals...
You no longer can do that...it is the same when you wear the MASKS...
That is not healthy...we need fresh air...

This covid hoax is worse than the holocaust hoax. I've talked to many people who believe the holocaust was a hoax but still believe in this covid hoax. It's frustrating, you can't get through to these people who still rely on jew owned and controlled main stream media for their source of information. [show more]

Most people are simply too afraid to know and face the truth. They will take a "blue pill" and watch basketball or Jewlywood movies

I agree 100%, that's what sad about our people, they're distracted or just too afraid of the real truth. If it doesn't affect their lives they don't want to know. What burns me is White people wearing their favorite negro's name in a sports ball jersey. That's what I call stupidity, not ignorance.

PCR is NOT a test. It is a DNA/RNA amplification TECNIQUE.

You know what some of the first use of the PCR technique was? CRIME SCENE ANALYSIS of the criminals DNA.

The criminal would leave something behind at a crime scene, like a cigarette butt, or a spit out piece of gum where their DNA is left [show more]
